"*Medically necessary*" or "*medical necessity*" means:

- That the medical treatment or diagnostic test is consistent with the clinically supported symptoms, diagnosis or indications of the injured person, and;
- The treatment is the most appropriate level of service that is in accordance with the standards of good practice and standard professional treatment protocols consisting of evidence-based clinical guidelines/practice/treatment published in peer-reviewed journals;
- The medical treatment or diagnostic testing is consistent with the Care Paths in the Appendix, as applicable;
- The treatment of the injury is not primarily for the convenience of the injured person or provider; and

### **BUSINESS HOURS**

As it relates to this Decision Point Review Plan, "Business hours" are defined as Monday through Friday, between the hours of 7:00 a.m. and 7:00 p.m. EST, except for federally and/or state declared holidays and New Jersey declared state of emergencies where travel is prohibited.

### **CALENDAR AND BUSINESS DAYS**

As it relates to this Decision Point Review Plan, the following applies when "days" are referenced:

- "Days" means calendar days unless specifically designated as business days.
- A calendar and business day both end at the time of the close of business hours (7:00 p.m. EST Monday through Friday, except for federally and/or state declared holidays and New Jersey declared state of emergencies where travel is prohibited).
- In computing any period of time designated as either "calendar" or "business days", the day from which the designated period of time begins to run shall not be included.
- The last day of a period of time designated as "calendar days" or "business day" is to be included unless it is a Saturday, Sunday, or legal holiday, in which event the period runs until the end of the next day which is neither a Saturday, Sunday or legal holiday.

*Example:* Response to a properly submitted Decision Point Review and Precertification request must be communicated to the requesting provider no later than three (3) "Business days" from the date Medlogix receives the submission. Medlogix receives an Attending Provider Treatment Plan Form by facsimile transmission dated 1:00 p.m. EST on Wednesday February 3, 2016. Day one of the 3-business day period is Thursday February 4, 2016. Since the 3<sup>rd</sup> day would be Saturday, February 6, 2016, Medlogix's decision is due no later than close of business Monday, February 8, 2016.

*Example:* Decisions on treatment appeals shall be communicated to the provider no later than fourteen (14) "Business days" from the date the insurer or Medlogix receives the appeal. The insurer or Medlogix receives the appeal by facsimile, transmission stamped 3:00 p.m. on Tuesday, January 8. Day one of the 14 business day period is Wednesday, January 9 and the 14th business day would be Monday, January 28. However, there is a state of emergency declared in New Jersey on Monday January 28 due to inclement weather. The insurer's decision would be due no later than Tuesday, January 29, providing the State of Emergency has been lifted.

### **FIRST TEN DAYS AFTER LOSS**

No decision point or precertification requirements shall apply within ten days of the motor vehicle accident necessitating the treatment in question, or to treatment administered in emergency care as stated in N.J.A.C. 11:3-4.7. Such treatment

shall be subject to retrospective review as the above provision shall not be construed as to require reimbursement of tests and treatment that are not medically necessary.

**CARE PATHS, DECISION POINTS & PRE-CERTIFICATION** Pursuant to N.J.A.C. 11:3-4, the New Jersey Department of Banking and Insurance (the "Department") has published standard courses of treatment, Care Paths, for soft tissue injuries of the neck and back, collectively referred to as "Identified Injuries". These Care Paths provide health care providers with general guidelines for treatment and diagnostic testing as to these injuries. In addition the Care Paths require that treatment be evaluated at certain intervals called Decision Points

At Decision Points, the health care provider must provide RiverStone International and/or Medlogix information about any further treatment or tests required. This is called Decision Point Review. During the Decision Point Review process, all services requested are evaluated by medical professionals to insure the level of care is medically necessary for the injuries. This does not mean that an insured and/or injured party is required to obtain approval from RiverStone International before consulting a medical provider for injuries. However, it does mean that the medical provider is required to follow the Decision Point Review requirements in order to receive maximum reimbursement under the policy.

In addition, the administration of any test listed in N.J.A.C. 11:3-4.5(b) 1-10 also requires Decision Point Review, regardless of the diagnosis. The Care Paths and accompanying rules are available on the Internet at the Department's website at <http://www.state.nj.us/dobi/pipinfo/aicrapg.htm> or can be obtained by contacting Medlogix at 877.258.2378.

The Decision Point Review process requires any and all health care providers supplying treatment, diagnostic testing, and/or durable medical equipment to submit all requests for treatment on the "Attending Providers Treatment Plan" form. A copy of this form can be found on the DOBI website <http://www.state.nj.us/dobi/pipinfo/aicrapg.htm>, Medlogix's website [www.Medlogix.com](http://www.Medlogix.com) or by contacting Medlogix @ 877.258.2378.

In addition with the completed Attending Providers Treatment Plan form, health care providers must submit a copy of their most recent/appropriate progress notes and the results of any tests relative to the requested services to Medlogix via fax at 856.910.2501 or mail to the following address: Medlogix, 300 American Metro Blvd., Suite 220, Hamilton, NJ 08619, Attn: Pre-Certification Department.

You or your health care provider must obtain pre-certification for specific services and/or conditions for treatment, diagnostic testing or durable medical equipment not included in the Care Paths or subject to Decision Point Review. Pre-certification is a medical review process for specific services, tests, or equipment during which medical professionals evaluate whether the level of services, tests, or equipment you are receiving is medically necessary and reasonable for your injuries.

## **PAYMENTS/REIMBURSEMENT**

RiverStone International will reimburse all eligible medically necessary services in accordance with the most current and applicable New Jersey PIP Regulations and Fee Schedule pertaining to the date of service.

When provider fees are not included in the applicable fee schedule, and there are likewise no similar services included in the applicable fee schedule, RiverStone International will use the most current version of Medlogix's re-pricing software (Medlogix) to adjudicate against submitted requests, and produce a detailed explanation of benefits outline of suggested reimbursement.

RiverStone International is not obligated to reimburse for specific CPT/HCPC codes even if approved or pre-certified in a decision point review/precertification request. If the National Correct Coding Initiative Edits (hereinafter referred to as "NCCI Edits") prohibit reimbursement for any combination of codes that were billed, such codes will not be reimbursed. The New Jersey Department of Banking and Insurance has adopted the NCCI Edits to prevent duplication of services and unbundling of codes. The current NCCI Edits can be viewed at the following web site:  
**[www.cms.gov/NationalCorrectCodInitEd/](http://www.cms.gov/NationalCorrectCodInitEd/)**.

When a provider bills CPT code(s) for medically necessary services that are not included in the applicable New Jersey Fee Schedule, RiverStone International reserves the right to reimburse the appropriate fee schedule amount for similar services or equipment in the region where the service or equipment was provided, or RiverStone International will determine the reasonableness of the provider's fee by comparison of its experience with that provider and with other providers in the region. National databases of fees, such as those published by FAIR Health ([www.fairhealthus.org](http://www.fairhealthus.org)) or Wasserman (<http://www.medfees.com/>), for example, are evidence of the reasonableness of fees for the provider's geographic region or ZIP code. The use of national databases of fees is not limited to the above examples. RiverStone International reserves the right to reimburse whichever amount is less.

### **DISPUTE RESOLUTION PROCESS**

Any dispute not resolved in the Appeal and Reconsideration process may be submitted through the Personal Injury Protection Dispute Resolution process which is governed by the New Jersey Department of Banking and Insurance (N.J.A.C. 11:3-5) and can be initiated by contacting the current vendor approved by the New Jersey Department of Banking and Insurance to administer Dispute Resolution/arbitration. RiverStone International Insurance, Inc. reserves the right to require disputes to be submitted through this Personal Injury Protection Dispute Resolution process in lieu of litigation in the Superior Court, as permitted by NJSA 39:6A-5.1(a).

Unless emergent relief is sought, failure to utilize the Appeal and Reconsideration process prior to filing arbitration or litigation will invalidate any prior Assignments of Benefits.
